

MASK CARRIER

C50/FM50/FM53/FM54

Designed to meet the stringent operational environments of the US Department of Defense (DoD) Joint Service General Purpose Mask System (JSGPM) program with over 2 million units delivered to date. The carrier is in use by all 5 services (Army, Air Force, Marines, Navy, Coast Guard) and over the past 10 years has seen action around the world in all operational environments without issue.

SPECIFICATION

- Meets requirements of US MIL-SPEC PRF EA-M-10003 JSGPM
- Designed to carry the mask with filter and protective hood, voice projection unit, manual, waterproofing bag, spare filter, 2 outserts with microfiber pouch and hose
- Novel internal secondary sleeve to prevent dust egress in the most extreme environments
- Designed with four carrying configurations including waist, under the arm belt and MOLLE attachment
- Will support long term storage with the inclusion of the faceform
- Fully adjustable Velcro® closure design optimizes fit with any mask

OPTIONS

- Available in various colors (Foliage Green, Ranger Green, Black, Coyote Tan. Other custom colors available)
- Extension strap available for under arm carry
- Individual equipment carrier for additional storage of decontamination kits, medical counter measures and detector paper

Part Number	Color
