TACTICAL
NIGHT VISION SIGHTS

GS-R Series

Night Vision Riflescopes GS-24R and GS-26R, represent combination of years of experience and the latest technological developments. The all-new design utilizes modern materials to reduce weight and improve recoil resistance. Standard features include a waterproof housing, Mil-Dot illuminated reticle, high-grade multi-coated optics, and a low-profile heavy-duty Picatinny mounting system. With zero retention on heavy caliber weapons (including .50 BMG class), these are the systems of choice among Military and Law Enforcement professionals.
