Assembly

HMG Pedestal

Technical specifications

Description :

HMG Pedestal module for adaption to the deck on RIBs, Patrol boats or Ships. To be equipped with various pintle interfaces, ballistics shield and mounts.

Specifications

Data

Weight (pedestal)

< 18kg

Height (adj. to config)

900-1100mm

Dia. footprint pedestal

470mm

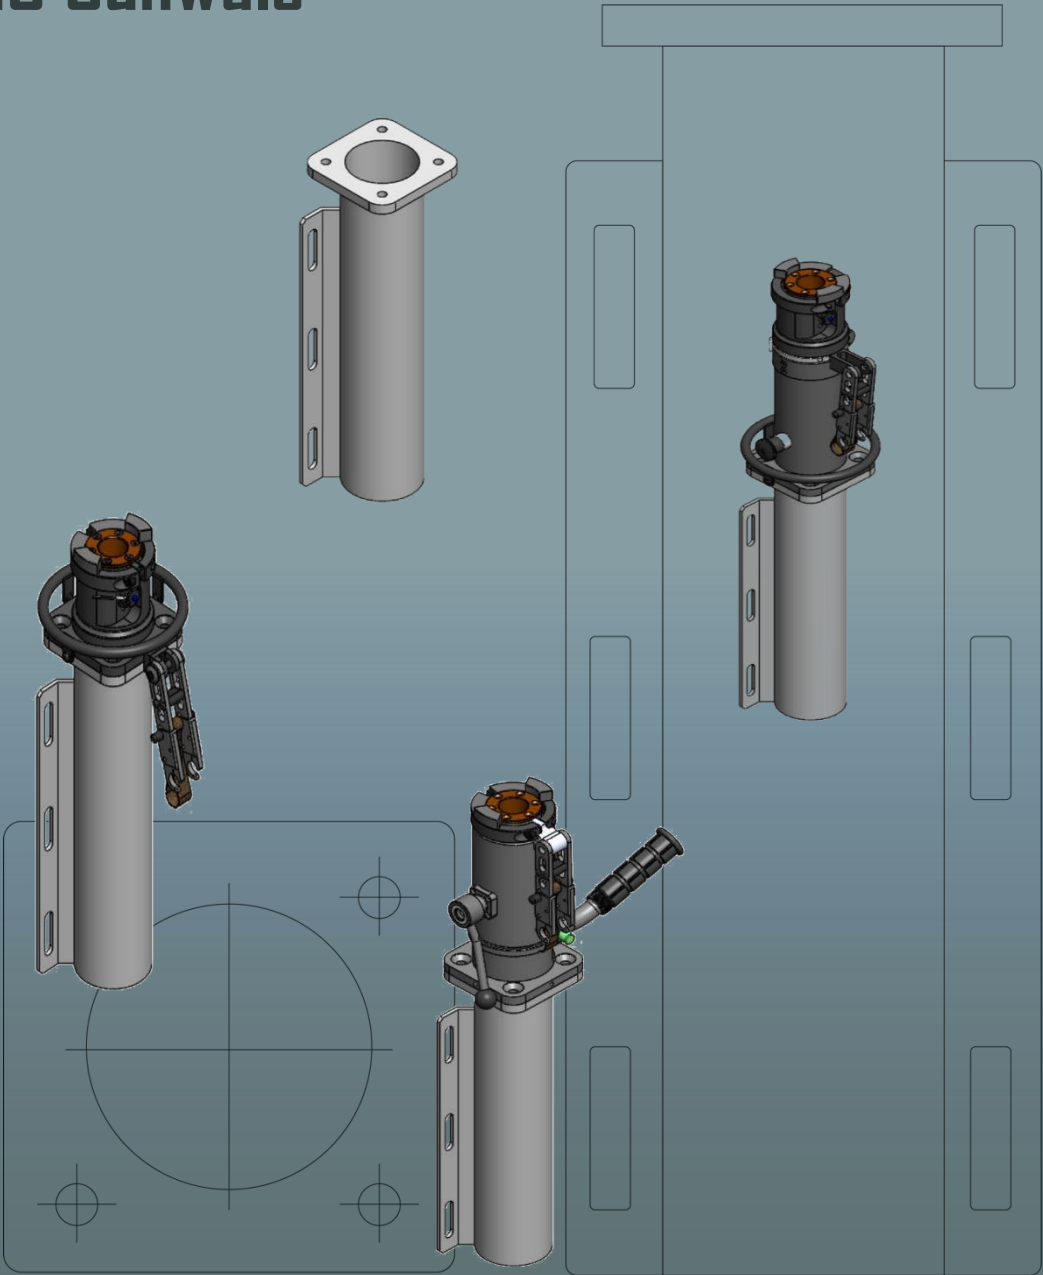

Material

Stainless steel

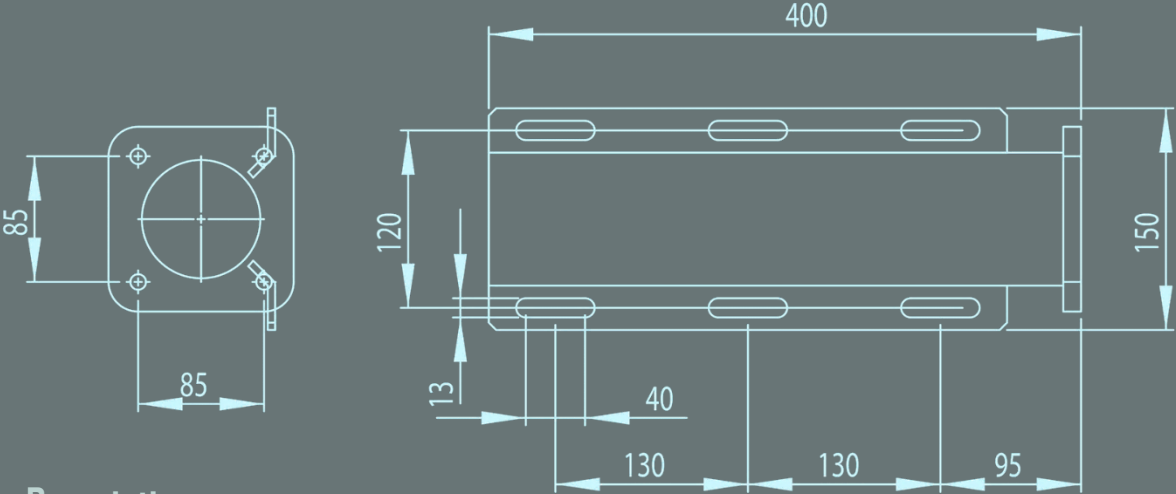

Surface treatment

RAL 7040 Navy grey and Black Oxidized MIL - DTL - 13924

HMG Gunwale

Technical specifications

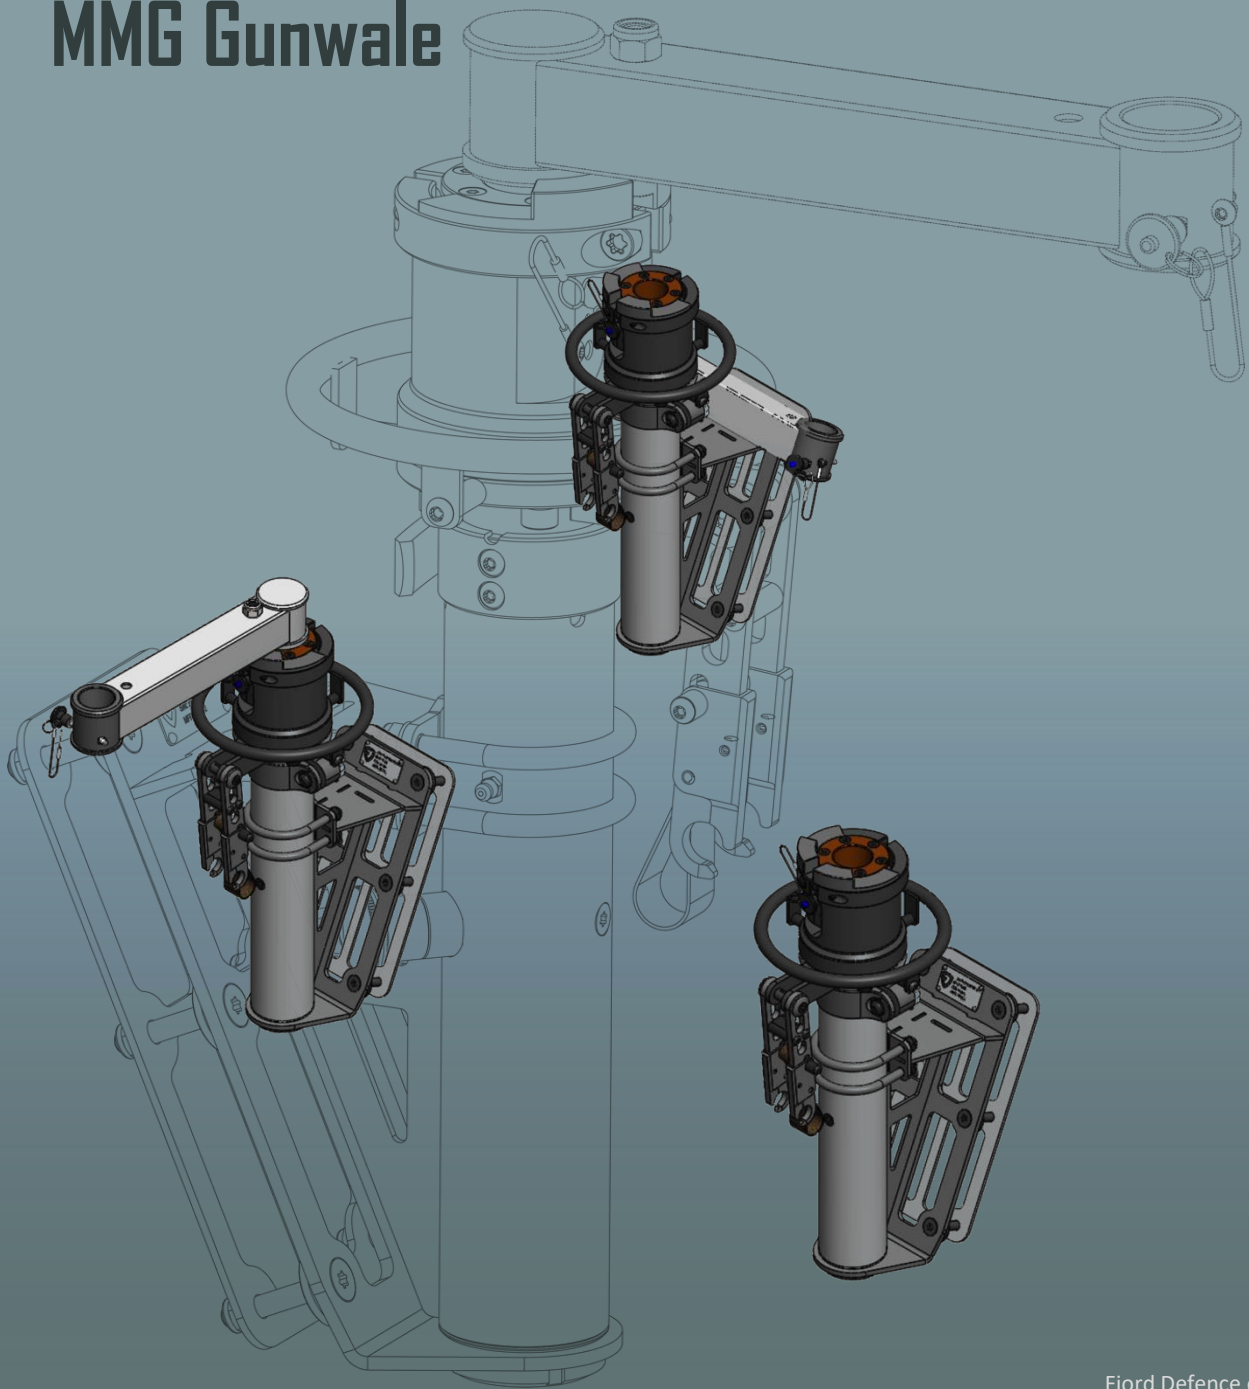

Description :

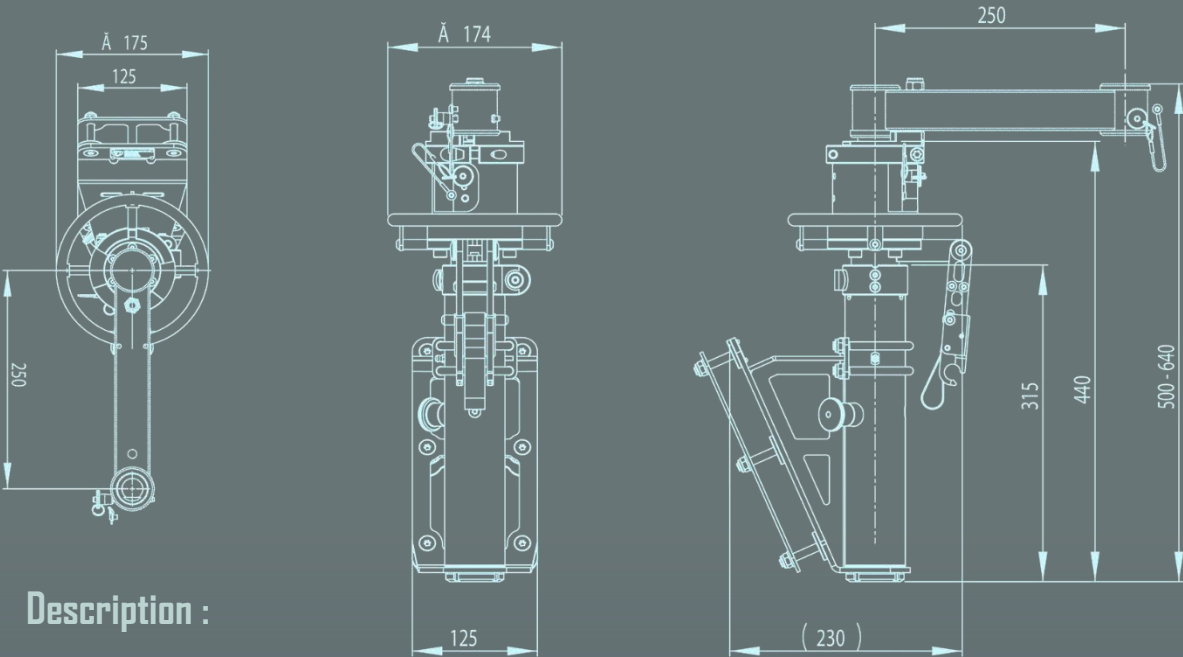

HMG Gunwale module for adaption to he rails on RIBs, Patrol boats or Ships. To be equipped with various pintle interfaces, ballistics shield and mounts.

Specifications	Data
Weight (module)	< 16,5kg
Height	400mm
Width	150mm
Material	Stainless steel
Surface treatment	RAL 7040 abd Navy greyBlack Oxidized MIL - DTL - 13924

MMG Gunwale

Technical specifications

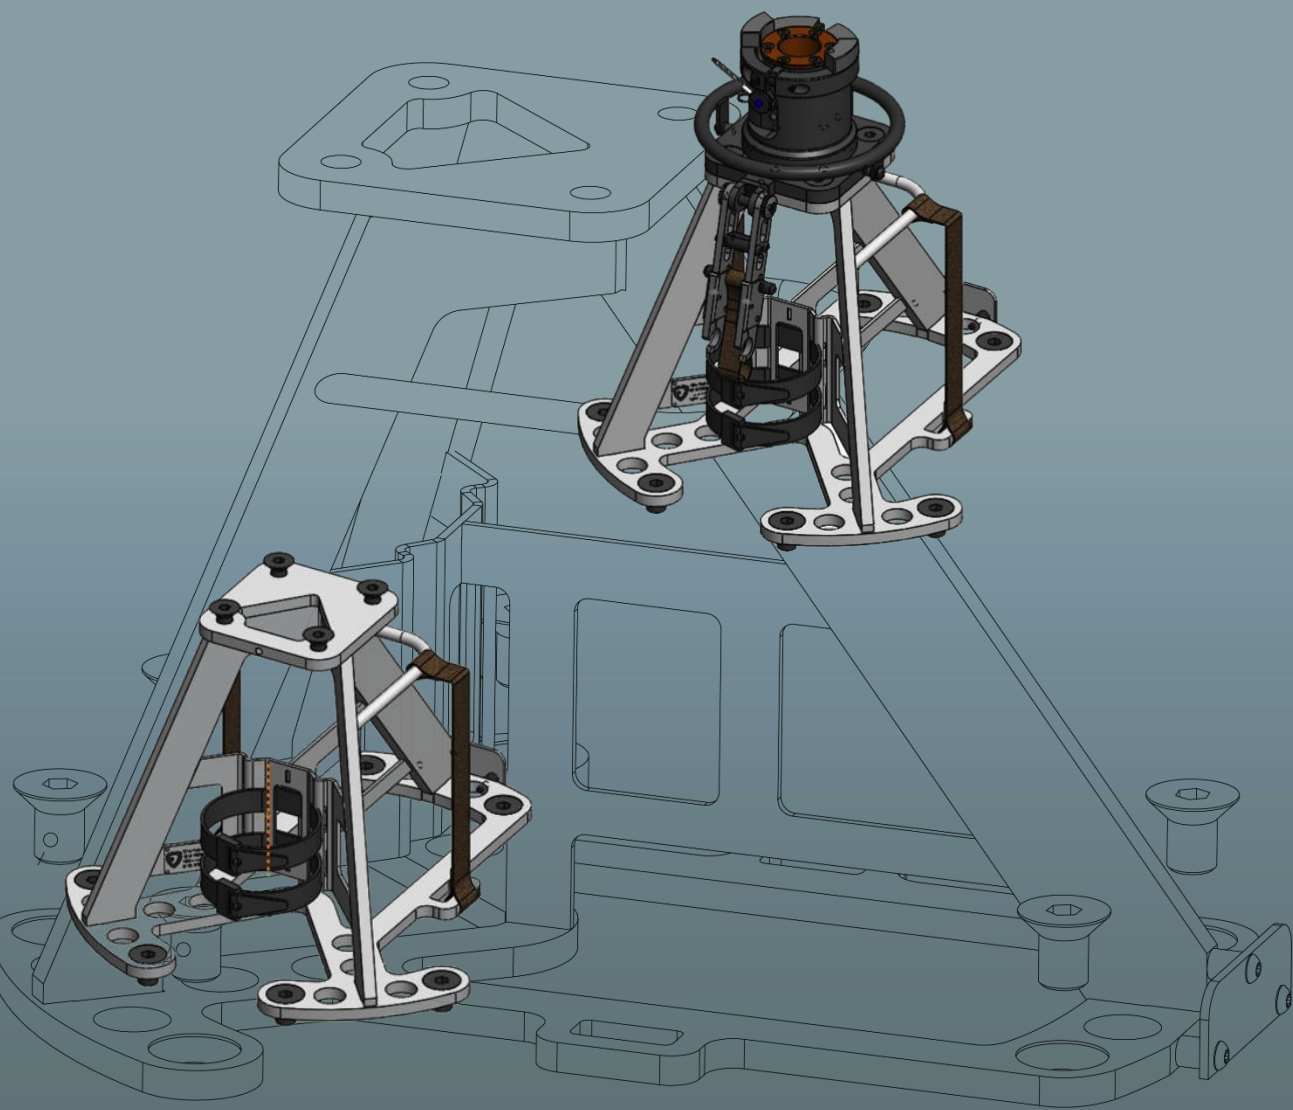

Description :

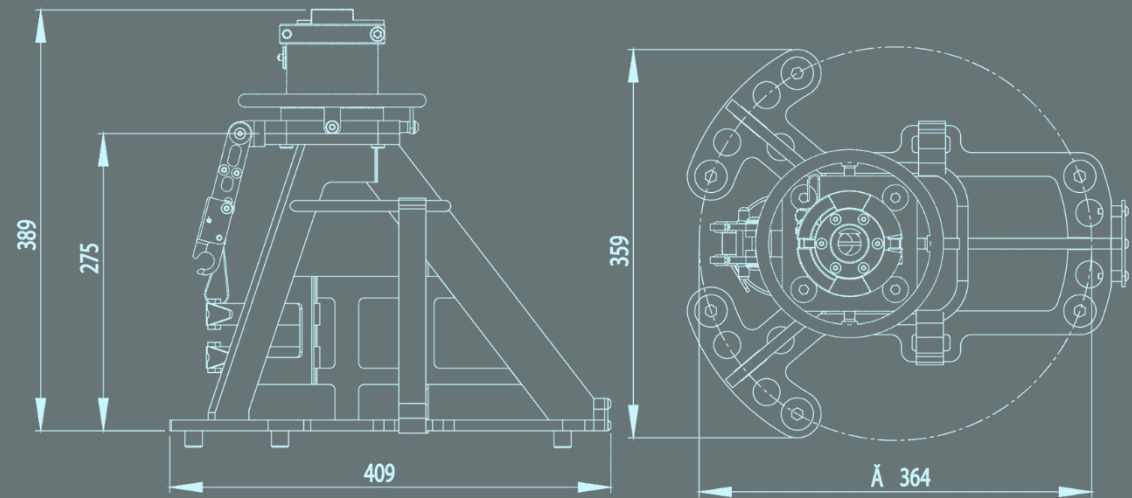

MMG Gunwale module for adaption to the rails on RIBs, Patrol boats or Ships. To be equipped Swing Arm, ballistics shield and mounts.

Specifications		Data
Weight	(170mm telescope, depending on brackets, shown config including swing arm)	< 12kg
Height		500mm
Dia. No Brackets		174mm
Material		Stainless steel
Surface treatment		Black Oxidized MIL - DTL - 13924
Interface		Tubular design for custom made solutions

Pedestal Low Profile

Technical specifications

Description :

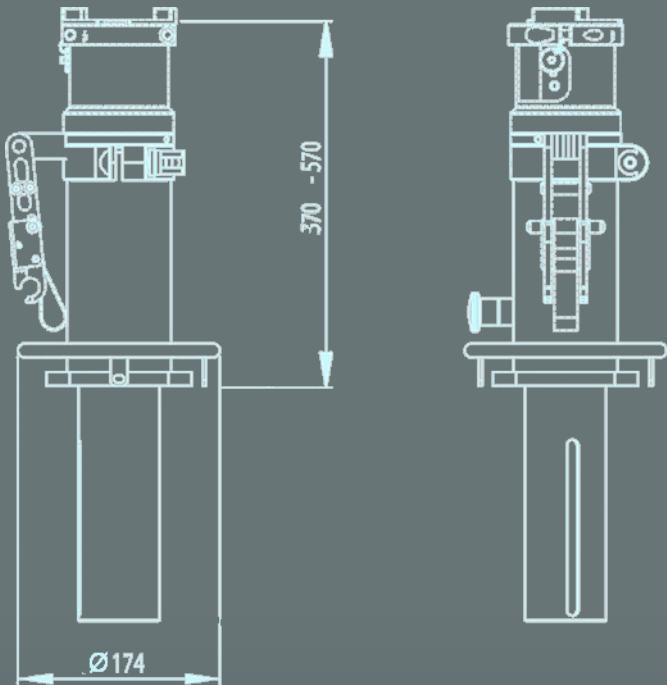

Low profile Pedestal module for typical bow adaption to RIBs and Patrol boats. To be equipped with various pintle interfaces, and mounts. Storage space on each side for ammunition box and space for oil can in centre.

Specifications	Data
Weight	< 8,5kg
Height	395mm
Dia.	409mm
Material	Stainless steel
Surface treatment	Black Oxidized MIL - DTL - 13924

Pintle Interface Telescopic

Technical specifications

Description :

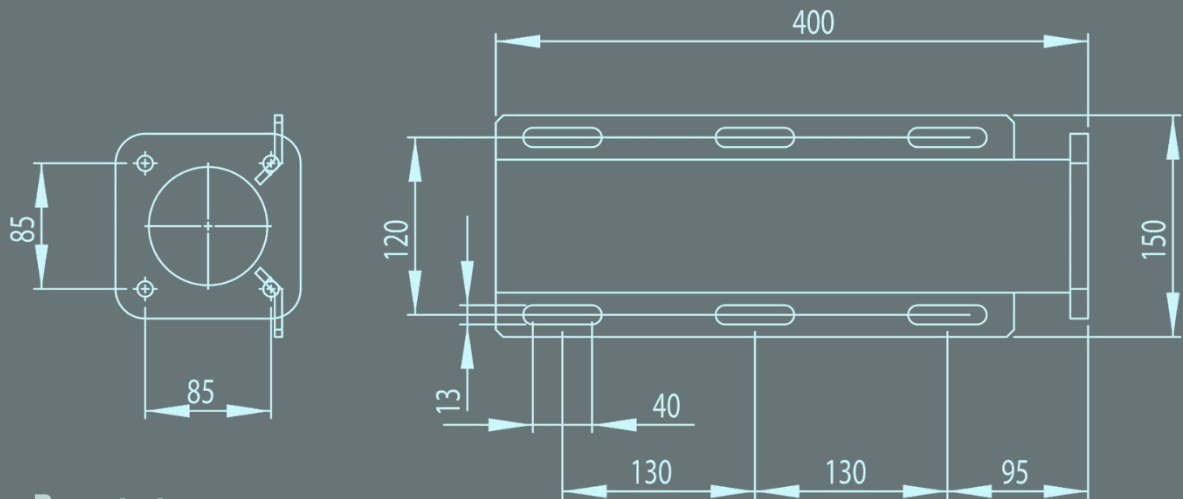

Telescopic pintle interface for pedestals and gunwales. STANREC 4796 interface for heavy and light machineguns. Adjustable when gun and shield dismantled.

Specifications	Data
Weight	< 15kg
Lifting Height	200mm
Material	Stainless steel and bronze
Surface treatment	Black Oxidized MIL - DTL - 13924
Interface	MK 16 stand bolt interface

Pintle Interface Jacking

Technical specifications

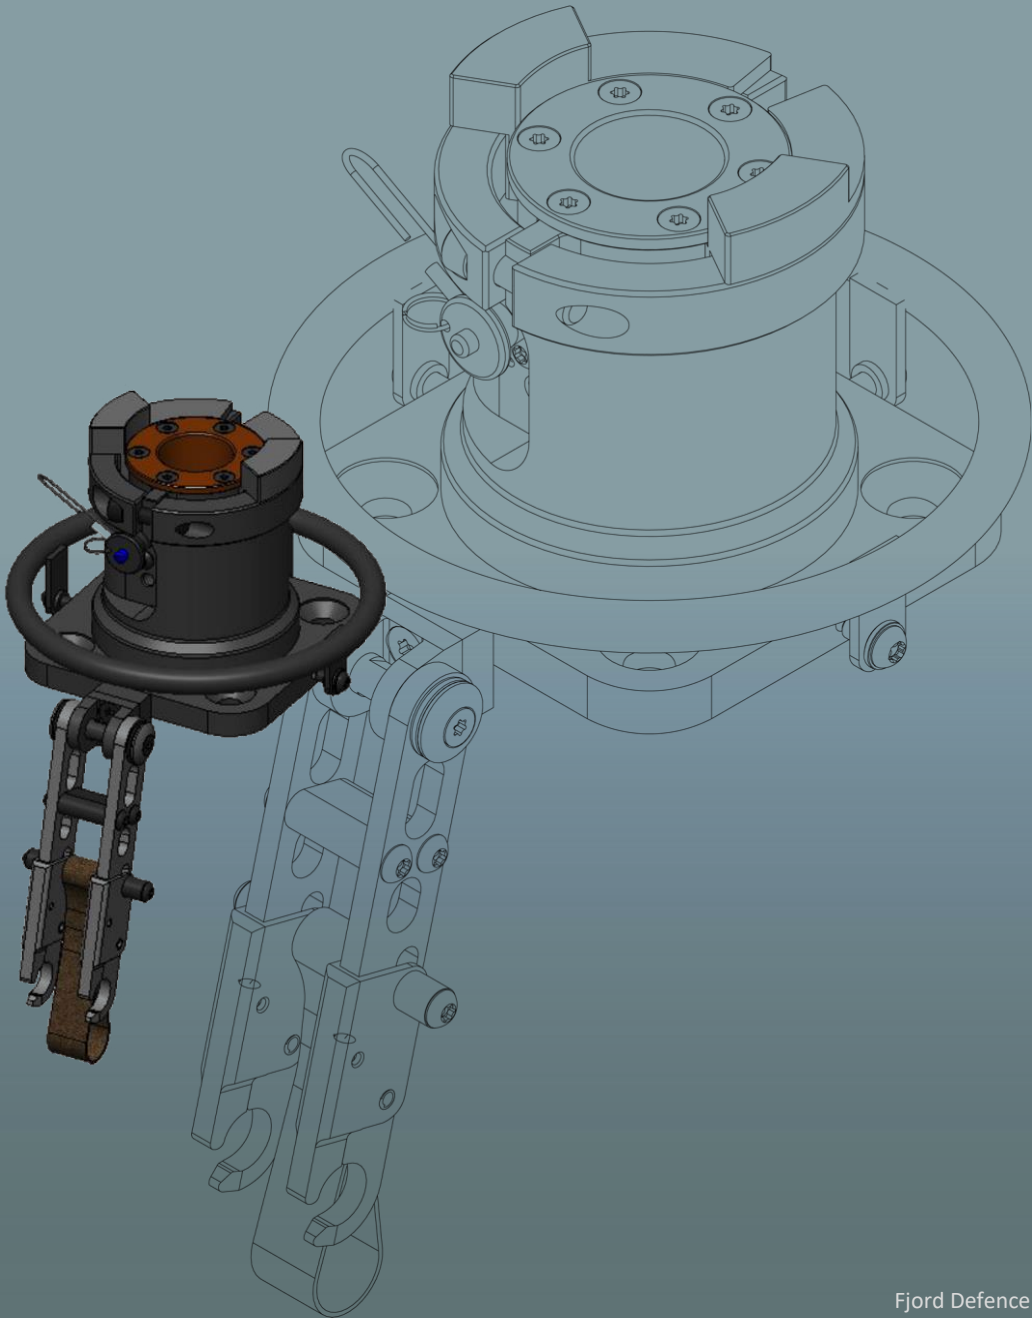

Description :

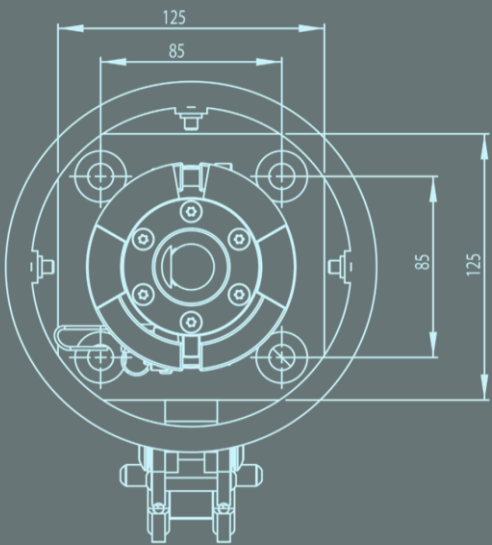

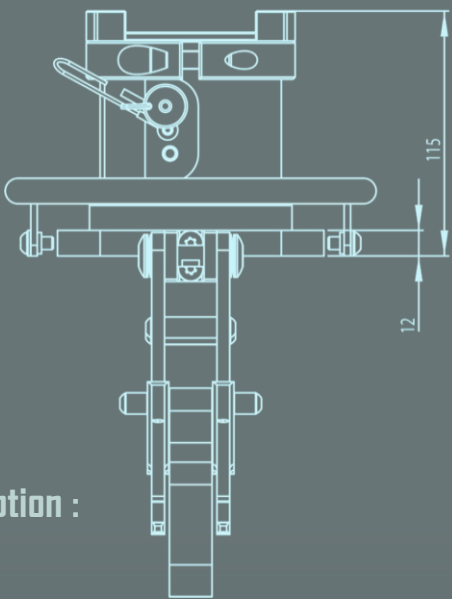

Pintle interface with jack for pedestals and gunwales. The height can be adjusted fully loaded with weapon and ammunition **STANREC 4796** interface for heavy and light machineguns.

Specifications	Data
Weight	15kg
Lifting Height	200mm
Material	Stainless steel and bronze
Surface treatment	Black Oxidized MIL - DTL - 13924
Interface	MK 16 stand bolt interface

Pintle Interface Fixed

Technical specifications

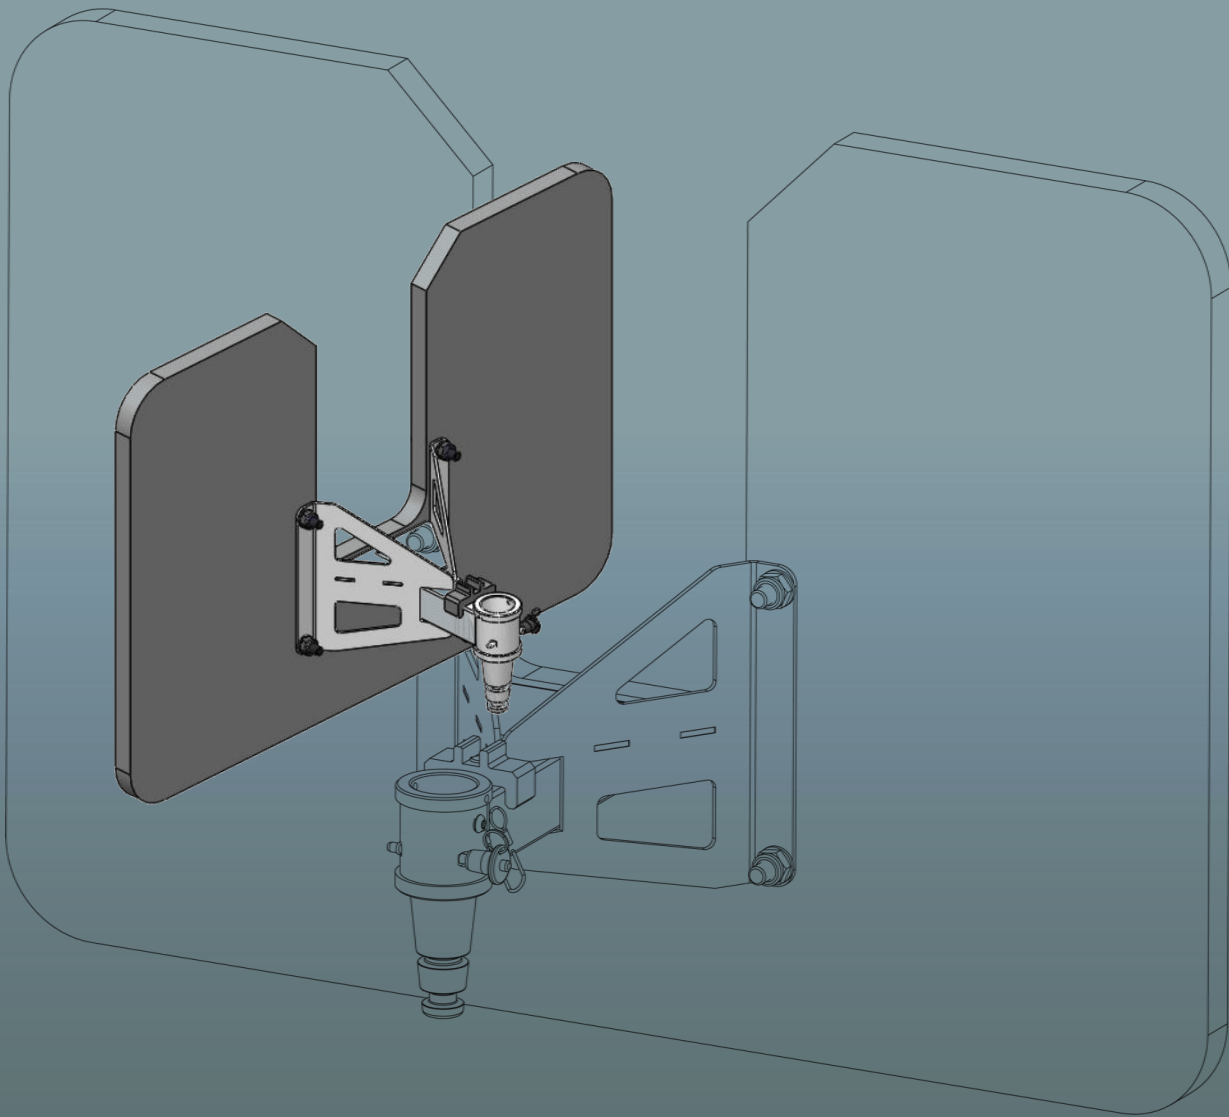

Description :

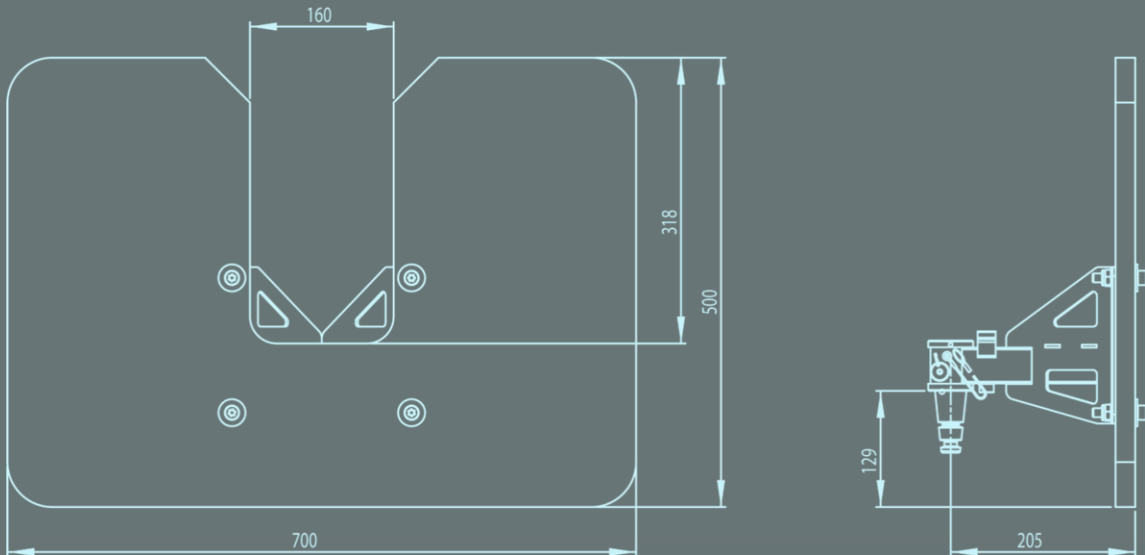

Fixed pintle interface for pedestals and gunwales. STANREC 4796 interface for heavy and light machineguns. With transport lock, Az sector limiter and interface for hip-belt

Specifications	Data
Weight	5,7kg
Material	Stainless steel and bronze
Surface treatment	Black Oxidized MIL - DTL - 13924
Interface	MK 16 stand bolt interface

Ballistics Shield MMG

Technical specifications

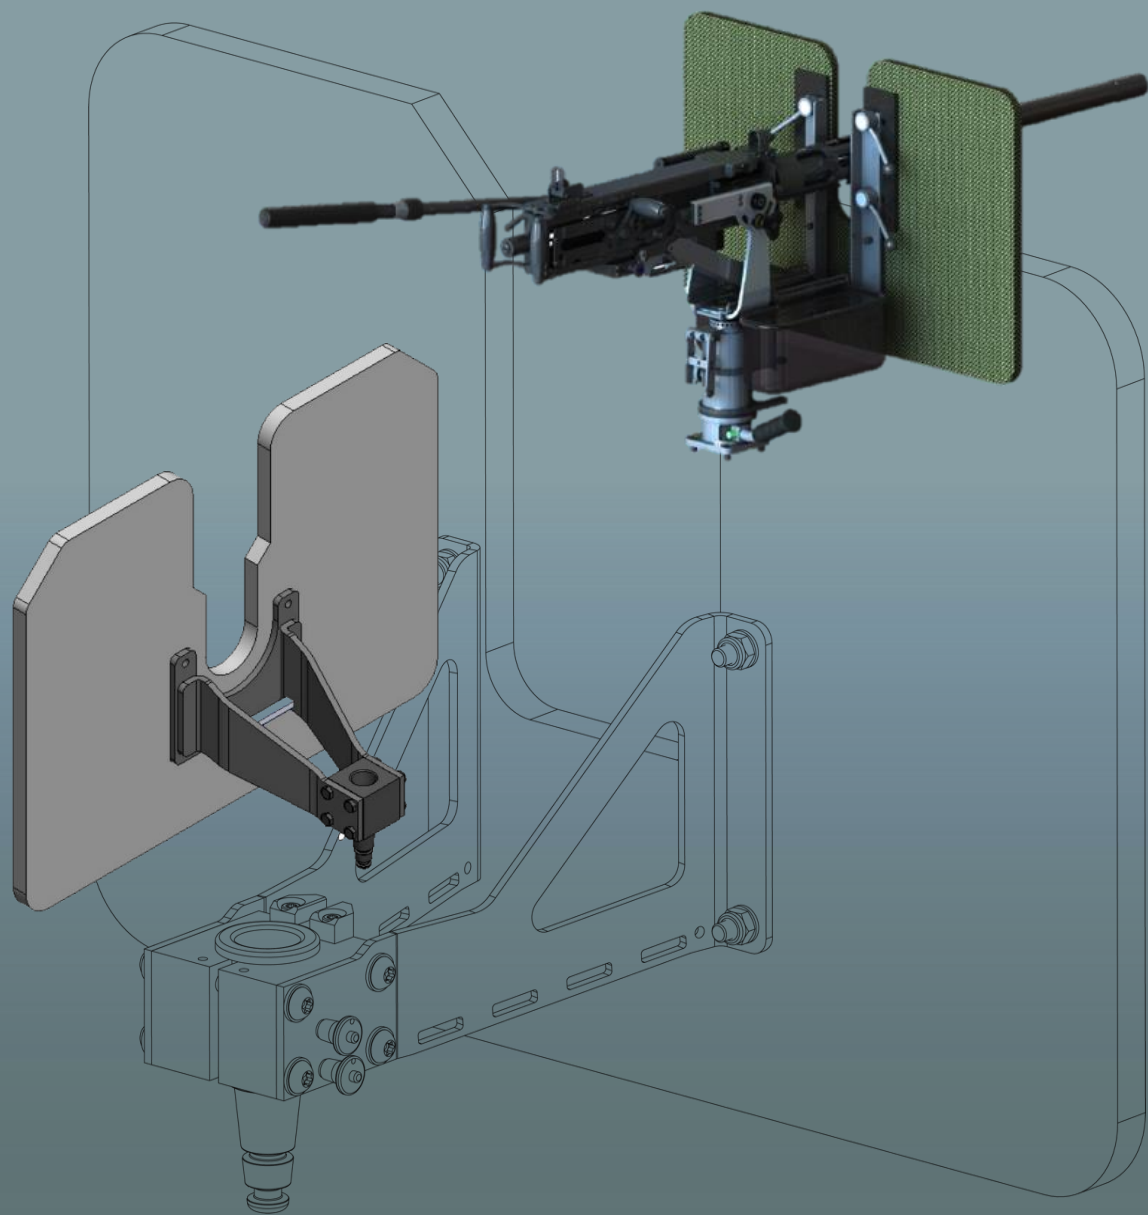

Description :

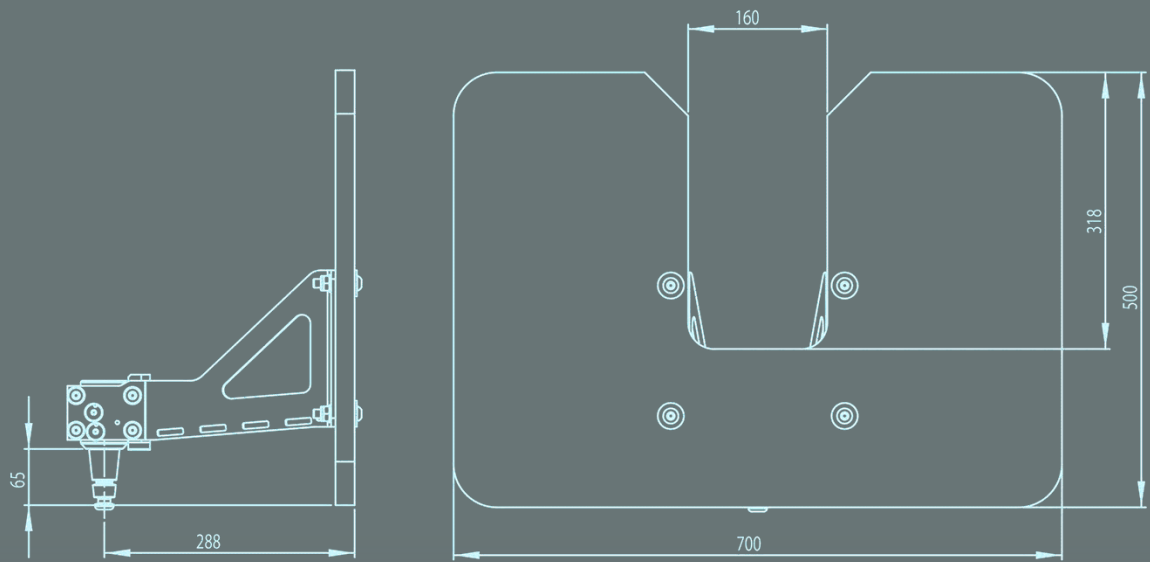

Ballistics shield with bracket for pedestals and gunwales medium calibre weapons. Protection level STANAG 1 or 2

Specifications	Data
Weight incl. bracket level 1 or 2	15 or 18kg
Protection level	NATO STANAG 1 or 2
Size	700x500mm (optional)
Material	Stainless steel and bronze
Surface treatment	Black Oxidized MIL - DTL - 13924 Shield plate in optional RAL colours

Ballistics Shield HMG

Technical specifications

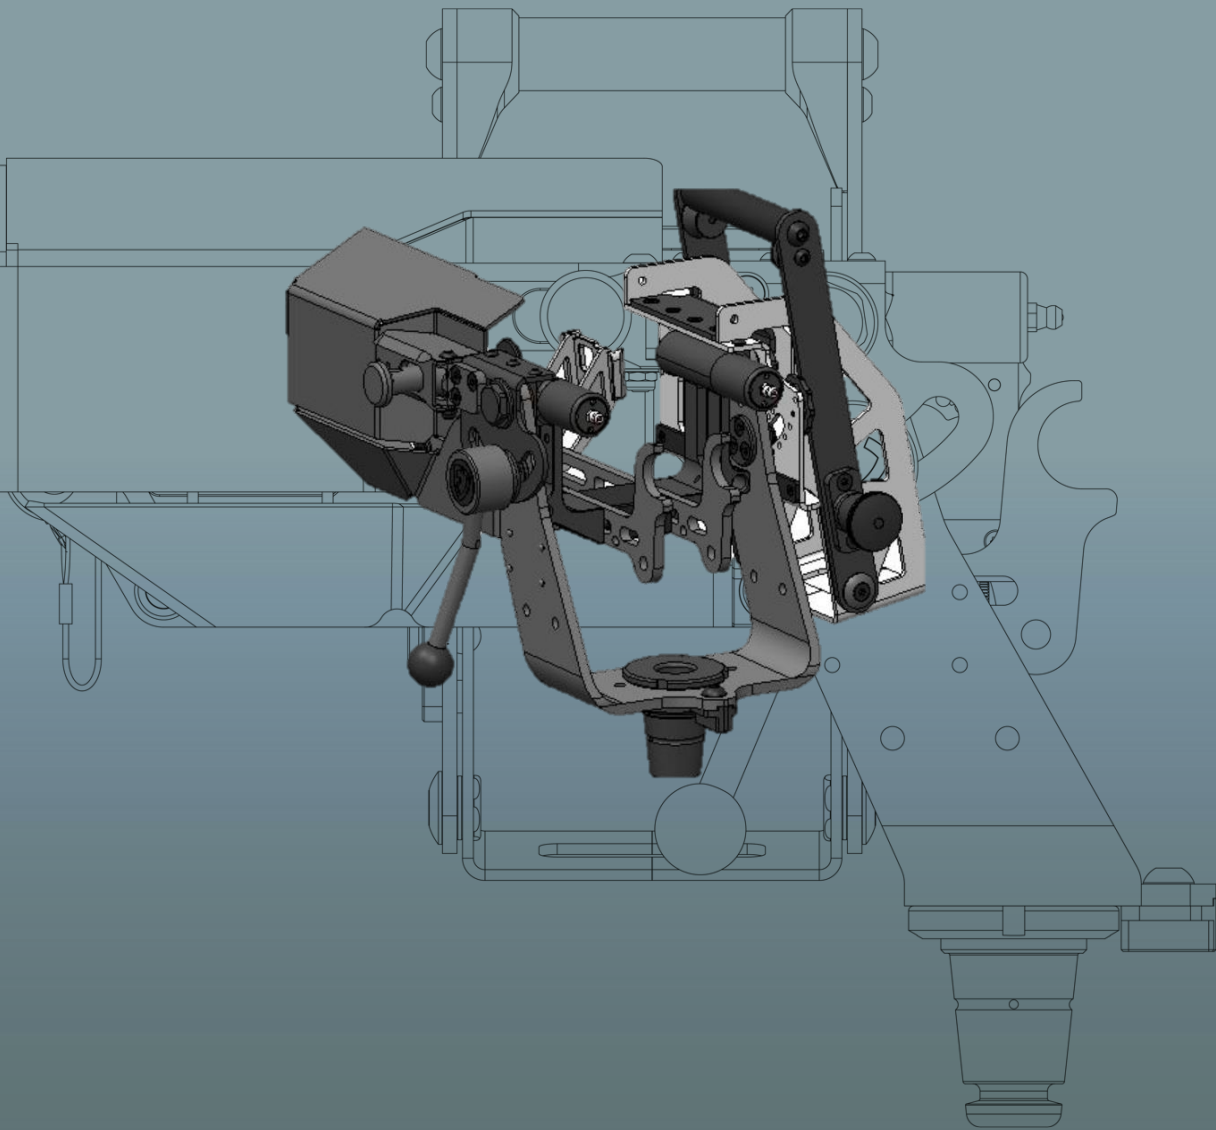

Description :

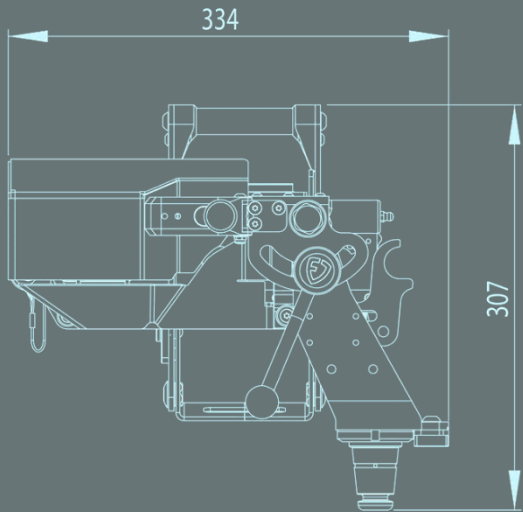

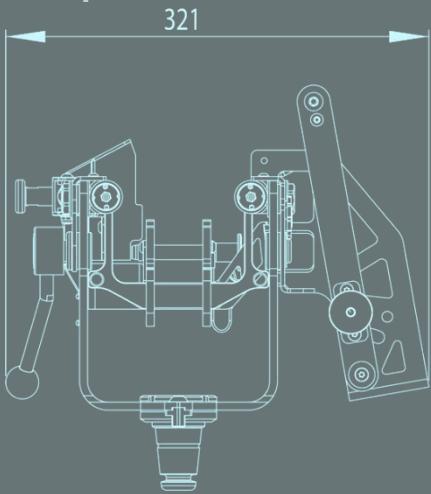

Ballistics shield with bracket for pedestals and gunwales. Protection level STANAG 2 or 3

Specifications	Data
Weight incl. bracket level 2 or 3	19 or 30kg (depend on size)
Protection level	NATO STANAG 2 or 3
Size	700x500mm (optional)
Material	Stainless steel and composite
Surface treatment	Black Oxidized MIL - DTL - 13924 Shield plate in optional RAL colours

MMG Mount

Technical specifications

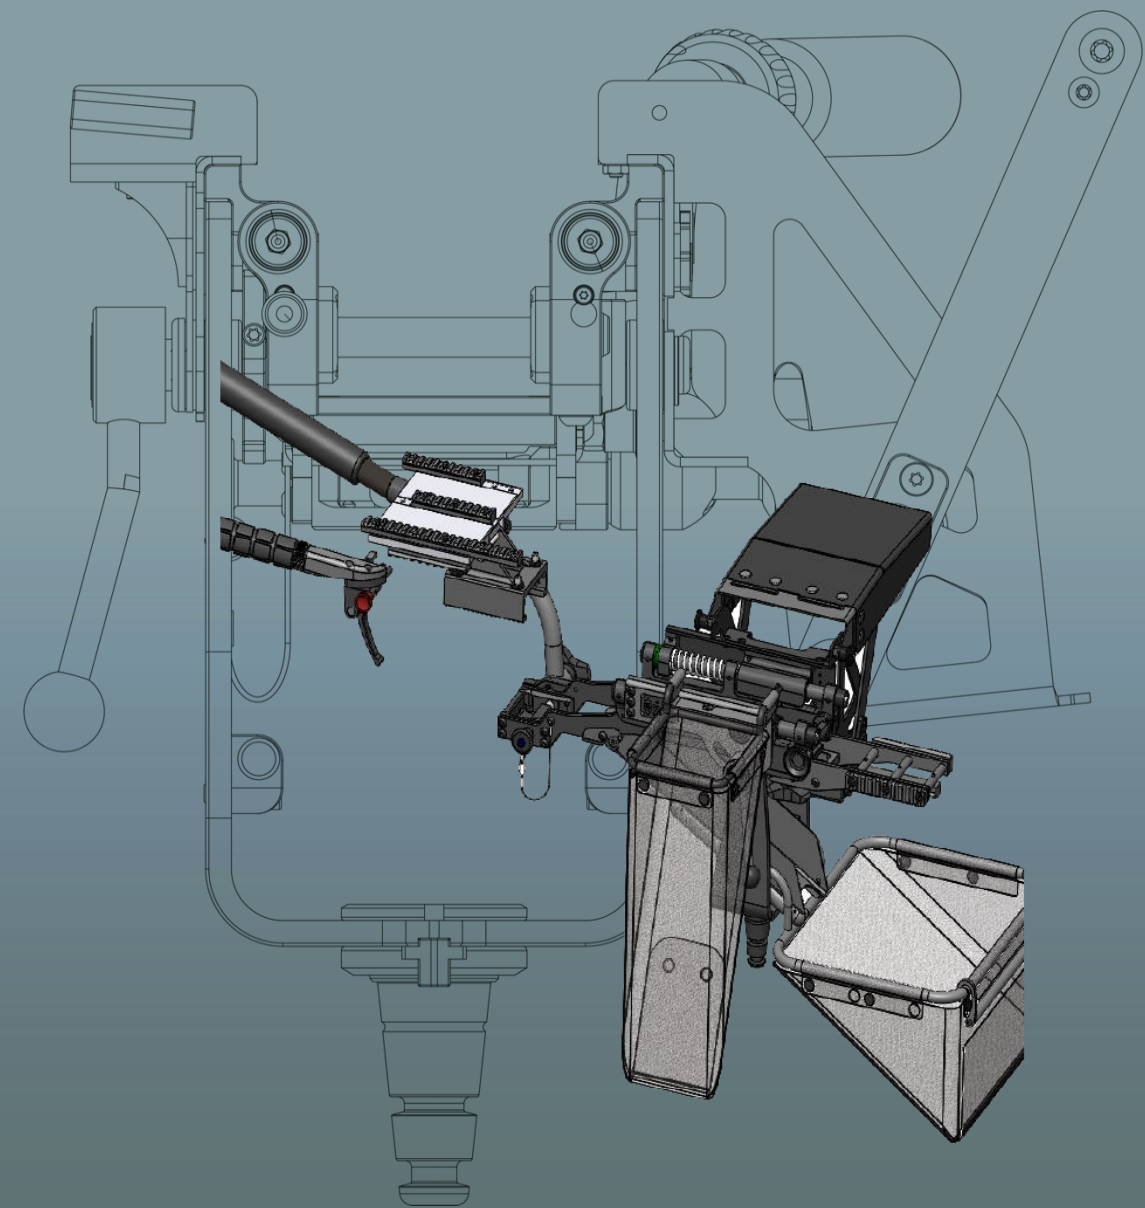

Description :

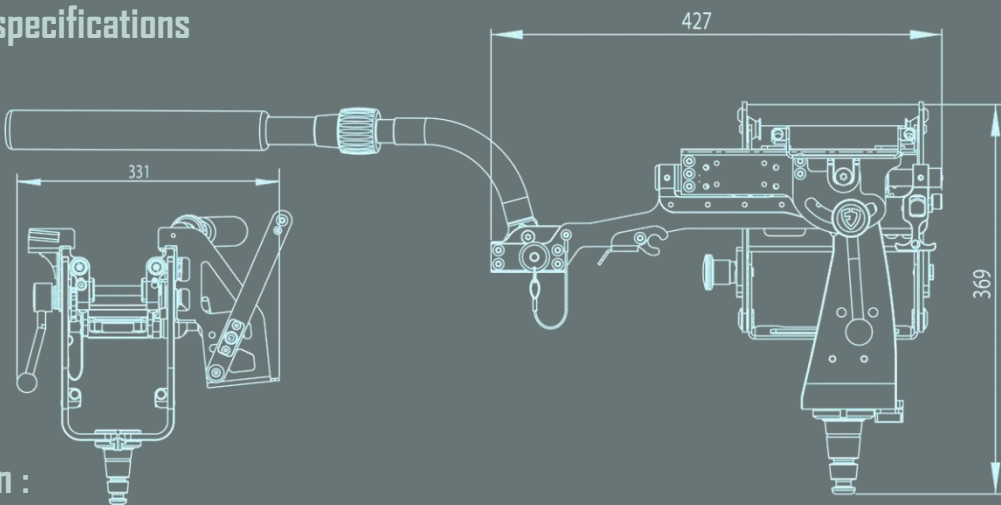

MMG Mount with integrated recoil damping fits all M240 variants. The MMG Mount has 60° elevation and 40° depression and narrow design gives a large range of motion. STANREC 4796 pintle interface. Adjustable depression limiter with 1° resolution. Holder for different types of ammunition boxes (M2A1-400 rounds, M19A1-200 rounds)

Specifications	Data
Weight	6kg
Dimension L x W x H	31cm x 32cm x 27cm
Material	Stainless steel
Surface treatment	Black Oxidized MIL - C -- 13924C

M2 Mount

Technical specifications

Description :

HMG Mount with integrated recoil damping fits all 12,7mm M2 variants. Robust design secures durability in all environmental conditions

The HMG Mount has 60° elevation and 30° depression

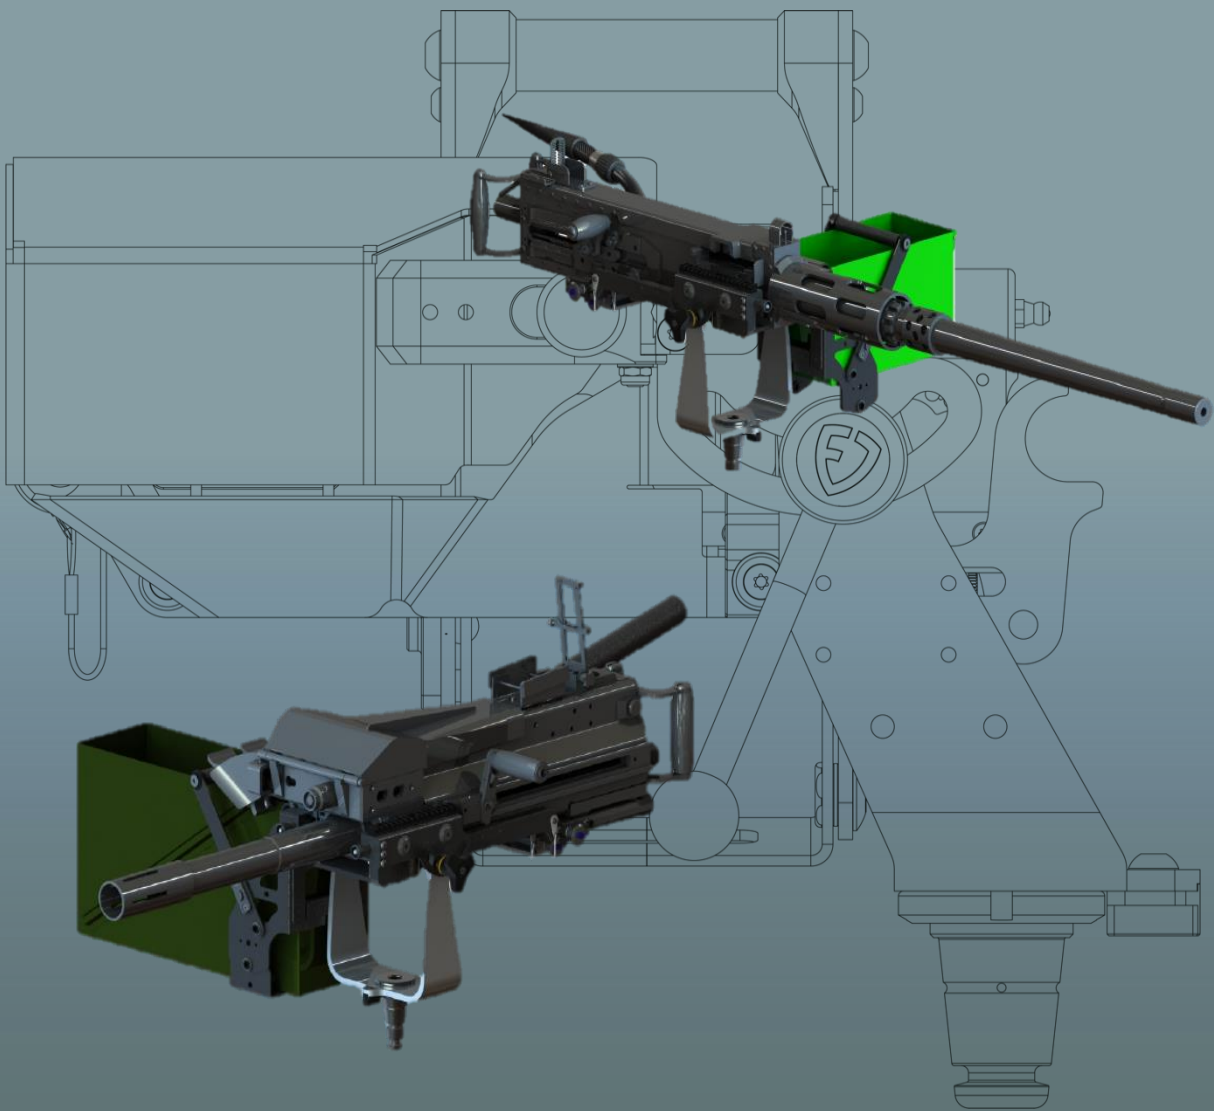

- STANREC 4796 pintle interface
- Adjustable depression limiter with 1° resolution
- Prepared for both right- and left-side ammo feed
- Accessories: Trigger, Brass and Link Catcher, Shoulder support, Sight Bracket, Tri-rail bracket (Light, laser) Ammobox cover, transport box.

Specifications

Data

Weight (depending on equipment)	<11kg
Dimension L x W x H	50cm x 30cm x 27cm
Material	Stainless steel
Surface treatment	Black Oxidized MIL - C -- 13924C

M2/MK19 Mount

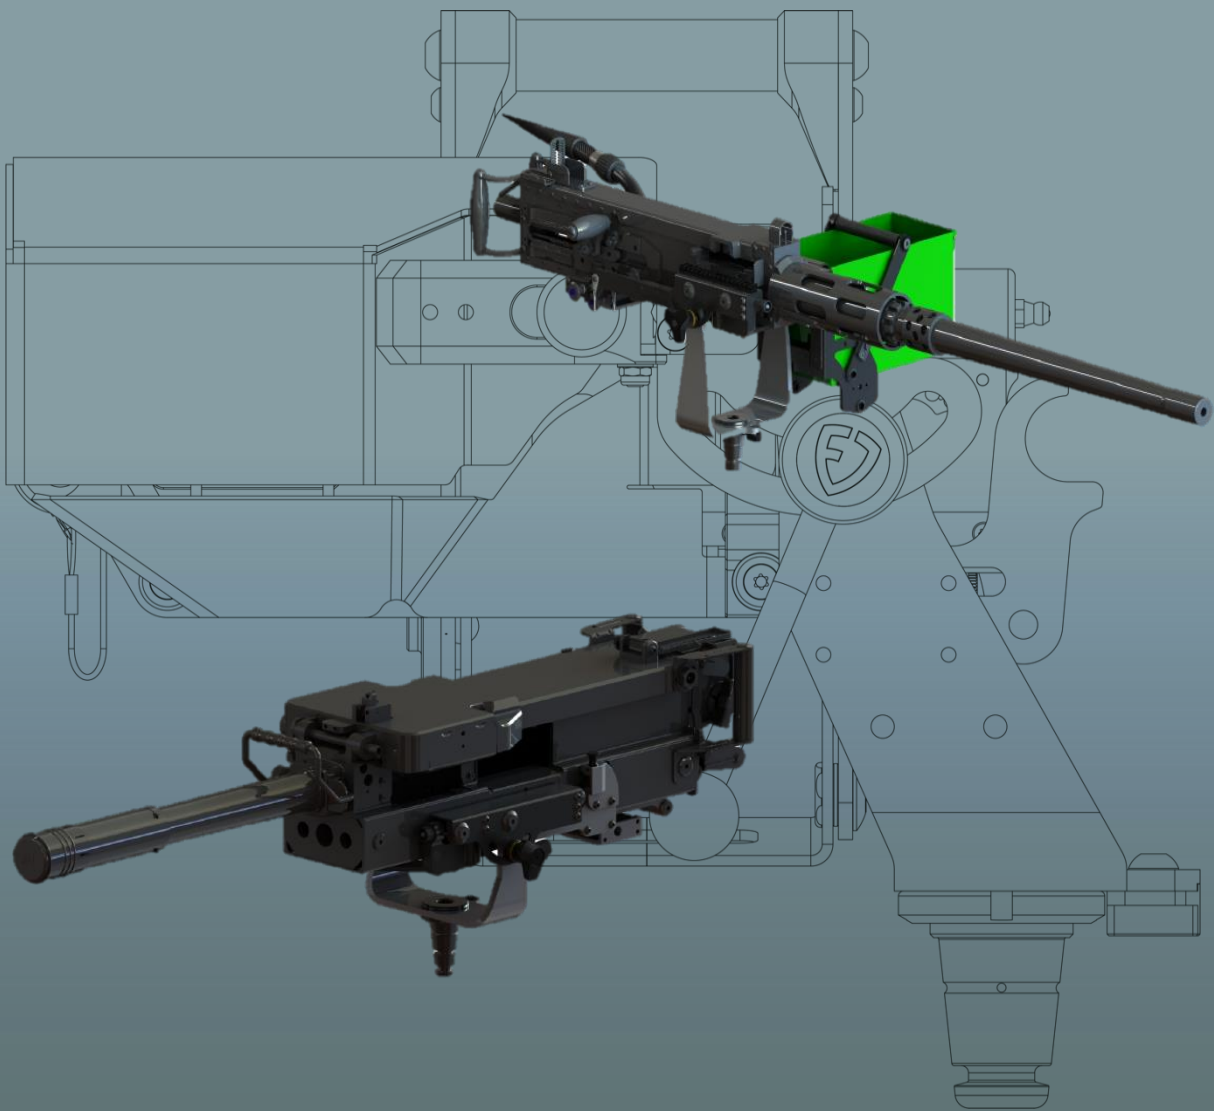

Technical specifications

Description :

The mount fit both HMG M2 and MK19
The mount has an integrated recoil damping system fits MK19 and HMG M2
Robust design produced in stainless steel secures durability in all environmental conditions
The mount has internal greasing system
Accessories:
- Sight bracket (HMG)
- Trigger (HMG)
- Bracket Airburst programming

Specifications	Data
Weight	<15kg
Material	Stainless steel
Surface treatment	Black Oxidized MIL - C -- 13924C

M2/GMG Mount

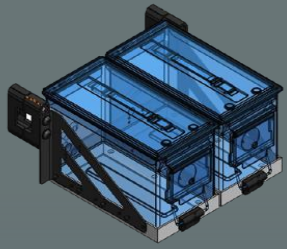

Technical specifications

Description :

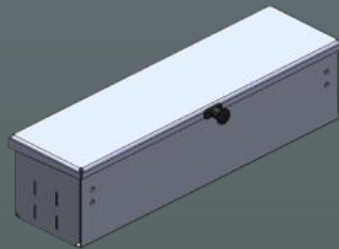

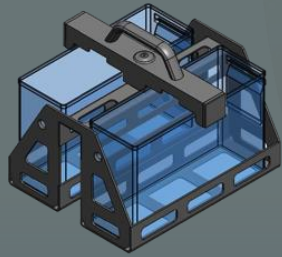

The mount fit both H&K GMG and HMG M2
The mount has an integrated recoil damping system fits MK19 and HMG M2
Robust design produced in stainless steel secures durability in all environmental conditions
The mount has internal greasing system
Accessories:
- Sight bracket (HMG)
- Trigger (HMG)
- Bracket Airburst programming

Specifications	Data
Weight	<15kg
Material	Stainless steel
Surface treatment	Black Oxidized MIL – C -- 13924C

Support Equipments
