TRAINING INFRASTRUCTURE

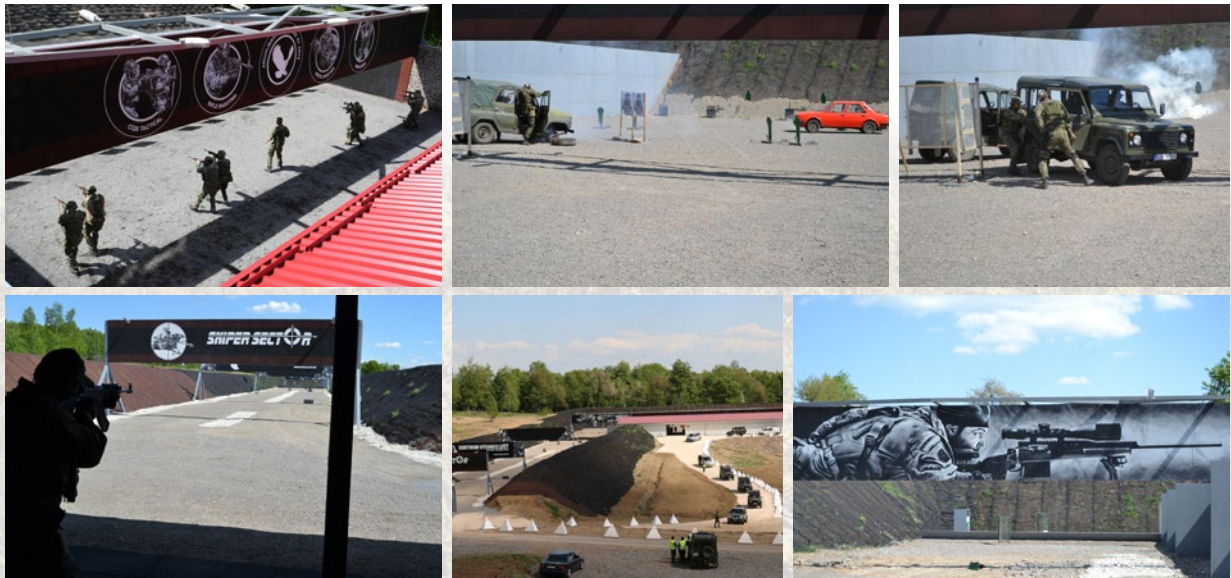

COMBAT AND TACTICAL TRAINING
FOR MILITARY & LAW ENFORCEMENT

IMPLEMENTATION OF PROJECTS FROM INITIAL DESIGN STAGE, THROUGHOUT CONSTRUCTION, TESTING AND MAINTENANCE, REGULAR SAFETY CHECKS, SPECIAL SURFACE DESIGN TO REDUCE ACOUSTIC POLLUTION AT SHOOTING RANGES.

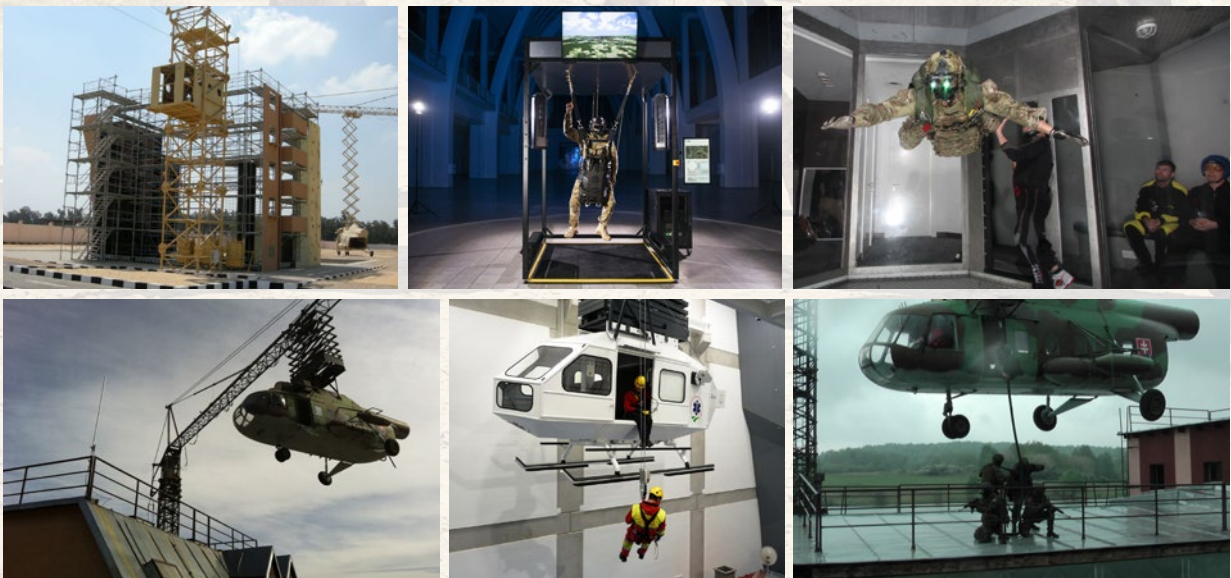

OUTDOOR SHOOTING RANGE (25 m, 50 m, 250 m)

Suitable for all firearms with calibers up to .50 cal. Shooting skills, CQB and sniper training. Custom build execution with various training equipment.

AIRBORNE - Helli Simulators

Complete infrastructure and simulators for the training of airborne units according to NATO standards, including complex training on HAHO/HALO using oxygen supply systems. Special building and helicopter body hung on movable crane with the possibility of helicopter body lifting and descending (COLLOSEUM). Facility designed for training of Rappelling, Fast Roping, Landings & Extraction.

CQB TRAINING - Kill House / Tacticle House

Typical and/or Tailor-Made layouts and executions. Use of FX Simulation, CQT ammo,  life ammo (lead core projectile). Equipped with CCTV for training missions recording and After-Action Review. Replaceable modular ballistic wall protection mounted on HARDOXT  RMOXT 

VCQB (Vehicle Close Quarter Battle)

Tailor made indoor shooting range – hall equipped with ballistic and acoustic protection. Wide enough in order to enable VCQB training, shooting from moving car. Equipped with CCTV for training missions recording and After-Action Review. Replaceable modular ballistic wall protection mounted on HARDOXT  RMOXT  Hall is a double use, as it can be used as an indoor shooting range.

FIBUA (Fight in Built-Up Areas)

Typical and/or Tailor-Made layouts and executions. Possible use of FX Simulation, CQT ammo. Equipped with CCTV for training missions recording and After-Action Review.

INDOOR SHOOTING RANGE

Modern indoor shooting range for short distance shooting training with live ammunition based on specific customer requirements with a wide range of technical and electrical equipment, CCTV for training missions recording and After  tion Review. Sound, light and smoke effects, powerful ventilation system.
