DROPSTER COUNTER DRONE SYSTEM
MADE IN SWITZERLAND

FUNCTIONALITY

The Dropster counter drone system system uses gas pressure to shoot off a cut-resistant net onto civilian drones. At contact, the net entangles itself with the rotors of the aircraft and blocks its thrust. As a consequence, the target falls to the ground.

SYSTEM ADVANTAGES

- ▶ High degree of mobility
- ▶ Quickly prepared
- ▶ Easy handling
- ▶ Also usable out of buildings and / or from rooftops
- ▶ Nonlethal
- ▶ Fast capture and tracking of target

APPLICATION AREAS

- ▶ Property protection:
 - Penitentiaries
 - Military facilities
 - Airports
 - International embassies
- ▶ Personal protection
- ▶ Event protection

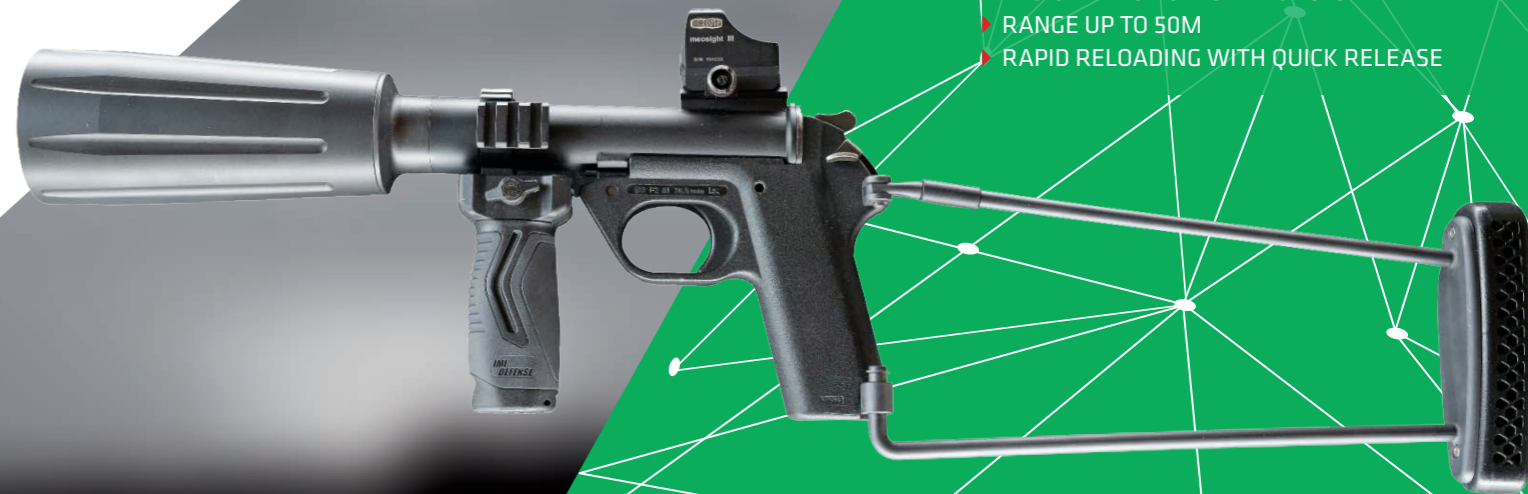

PERFORMANCE

- ▶ Guaranteed usage up to 30 m
- ▶ Low noise emission < 90 db
- ▶ Cut-resistant Dyneema-net
- ▶ High shooting speed
- ▶ Parallax free red-dot sight

NEW: DROPSTER 3.0

- ▶ EVEN MORE PERFORMANCE
- ▶ DESIGNED FOR SPECIAL FORCES
- ▶ RANGE UP TO 50M
- ▶ RAPID RELOADING WITH QUICK RELEASE
