Who we are

US-based Chart Industries is a global leader of engineered tank equipment used in the liquid supply chains with annual sales of approx. US\$ 1bn and 4,000 staff. It has domestic operations in eight states and international engineering and manufacturing in Australia, the Czech Republic, Germany and the United Kingdom.

Its German subsidiary, GOFA, is an “engineered and produced in Germany” premium quality supplier of sophisticated mobile tank equipment solutions that fulfil customer requirements to the highest levels. It has more than 30 years of experience with military tank applications. GOFA understands and meets all applicable worldwide regulatory and safety standards.

Containers

Potable Water

COMMON ELEMENTS

- Intermodal (sea, rail, road & air)
- ISO standards
- Tailored solutions
- Heavy duty design
- Baffles

OPTIONS

- Hook-arm
- Water treatment systems
- Filters
- Pumps & plumbing
- Heating, cooling & insulation
- Integrated power generators
- All climate zones
- Harsh environment
- Bicon/Tricon/Quadcon
- Full or half height

Containers

Fuel

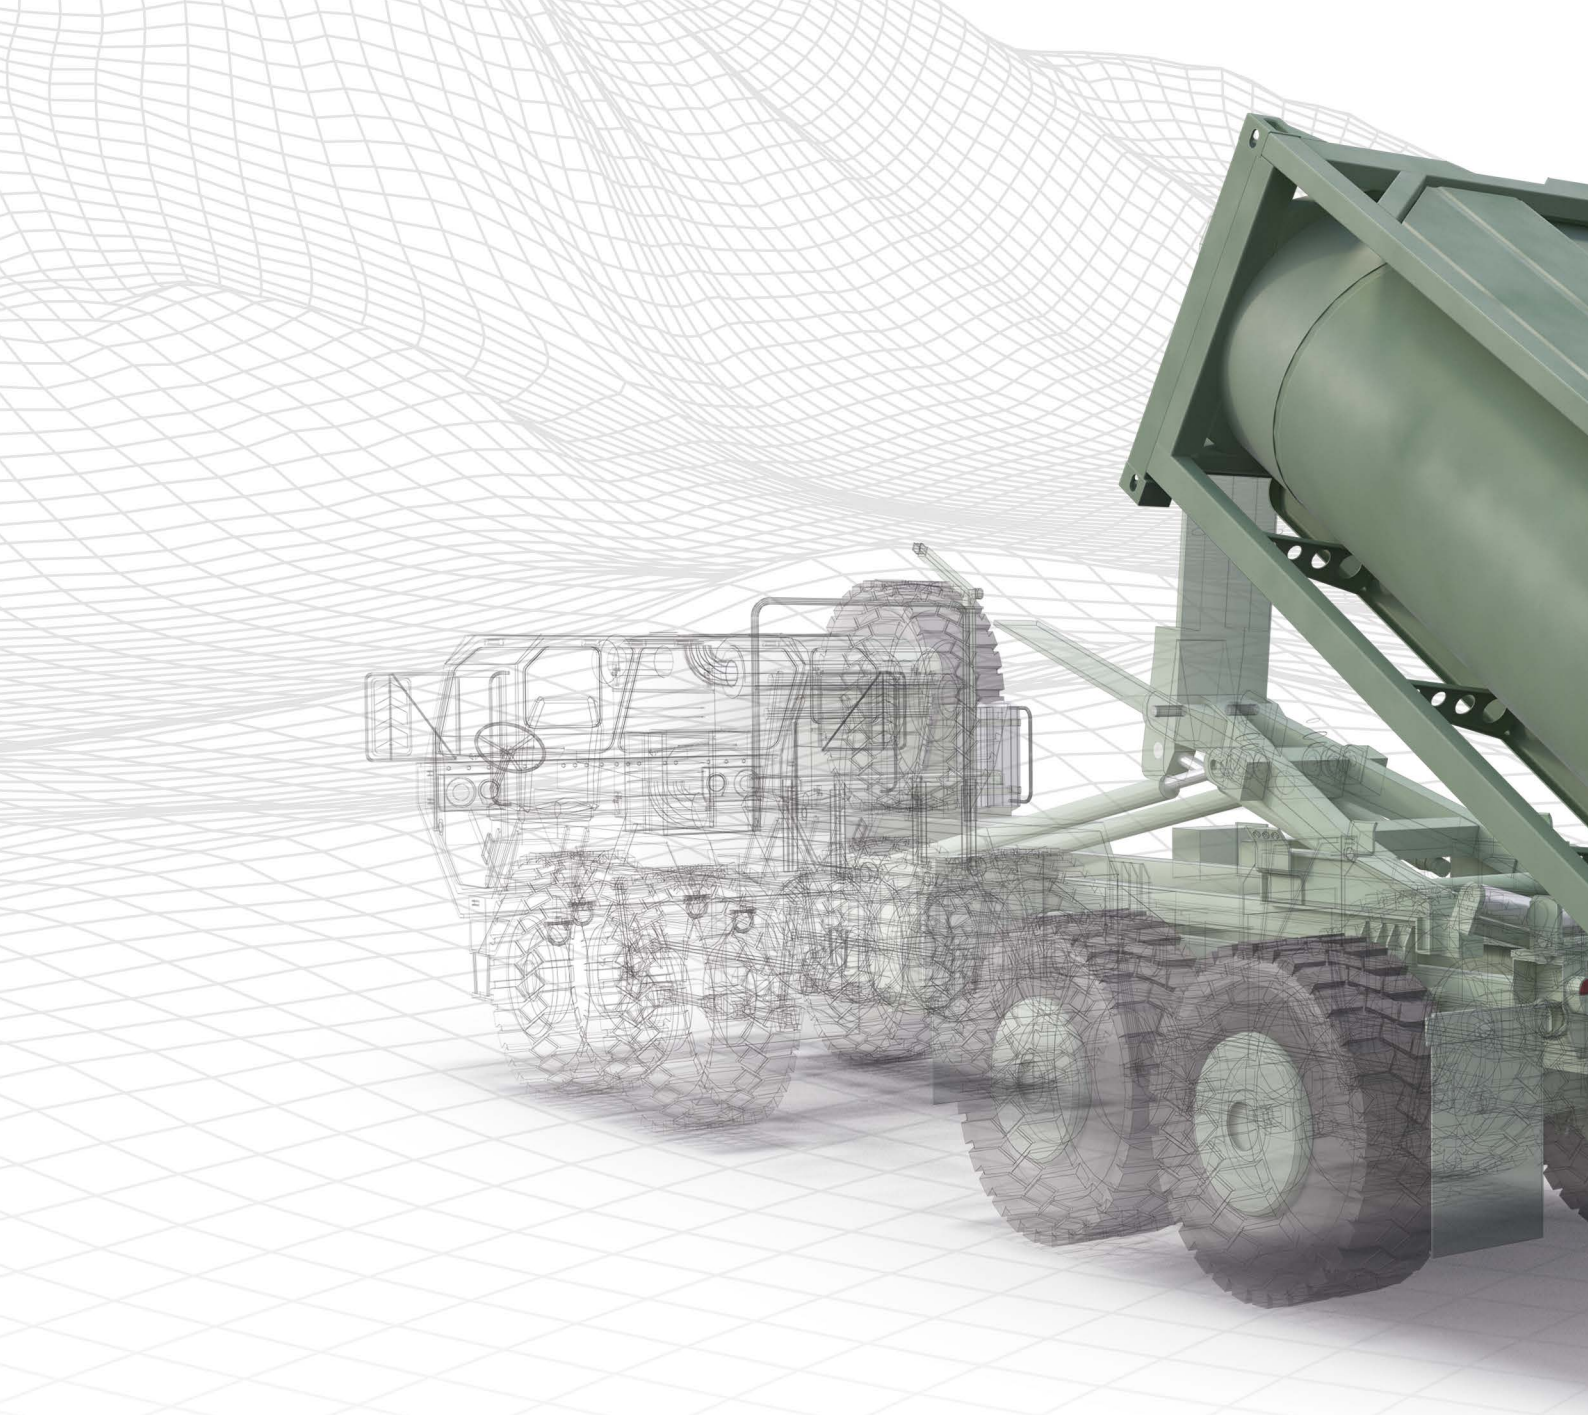

COMMON ELEMENTS

- Intermodal (sea, rail, road & air)
- Tailored solutions
- Heavy duty design
- Integrated power generation
- Baffles

OPTIONS

- Hook-arm
- Filters
- Pumps & plumbing
- All climate zones
- Harsh environment
- Water fuel separation
- Petrol/Jet Fuel/Diesel/JP8
- EX/ATEX
- Double shell
- Self sealing

Truck-mounts, Semi-trailers and Trailers

Military potable water and fuel tanks, designed and manufactured by GOFA, have been in-service for more than 30 years with defence forces around the globe. GOFA knows about, and understands, the requirements for today's military operations and is keen to work with you on future solutions.

Whether for small high mobility tanks or for high volume units, GOFA can provide you with the solution which ensures the fuel, water and other liquid supply.

COMMON ELEMENTS

- Tank sizes from 1,000 to 60,000 litres
- Cylindrical and special tank forms
- Low centre of gravity
- Applicable for new and old trucks
- Baffles

OPTIONS

- Water treatment systems
- Filters
- Pumps & plumbing
- Heating, cooling & insulation
- Integrated power generators
- All climate zones
- Harsh environment

Tank sizes
from 1,000 to
60,000 litres
